

## Capt. W. E. Lockhart Died at Fort Sill

### Funeral Friday

CAPT. W. E. LOCKHART, who died Sunday at Fort Sill following a short illness, will be buried here Friday afternoon with military honors.

## First Word Here Regarding Death Lieut. Penick

Lieut. Lucius G. Penick was killed in Australia in landing from a return trip after a short hop, according to a letter received by his wife, Lieut. Jim LaSalle, tent mate of Lieut. Penick during the Java campaign, wrote a few details from Australia.

This was the first word received by the family since the telegram was written telling of his death on July 16. The letter was written by Lieut. LaSalle on July 30. The war department will send a full report together with the personal effects of Lieut. Penick in the near future.

The letter said in part: "The irony of it all is that after all the suicide missions in Java, the hectic and miraculous escape on the boat back to Australia, and the long, tough missions from Australia, he should be killed in landing after a short hop—terrifying people and airplane parts to another field. "Lucius was the most unselfish person in the world in many ways. While everyone was writing home and more or less bragging about their combat missions, he was telling you 'no flying for me,' because he didn't want to worry you. As a cheerer-upper he was unsurpassed; always laughing and shouting at some one."

## T. M. Moore Goes To Iowa State For Ph. D. Work

Prof. T. M. Moore of the Department of Agriculture at West Texas State, has been granted a year's leave of absence by President J. A. Hill and will leave Friday for Ames, Iowa where he will assume duties as a teaching assistant while working on the Ph. D. degree in vocational education at Iowa State College.

Mr. and Mrs. Moore and their son, T. M., Jr., returned last Wednesday from Iowa State, the agricultural and mechanical college of Iowa where Mr. Moore had been attending school.

Dr. Charles E. Fridley is president of Iowa State. He was Registrar of A. & M. College while Mr. Moore took his work in that institution and offered this position to Mr. Moore for the coming year.

Mr. and Mrs. Jerry Ludlum and son, Monte, left Monday to visit friends and relatives in Darrouzett.

## Fine Rains to Start '43 Wheat

2.75 Inches of Moisture Is  
Received in Canyon During  
First Part of the Week

Canyon had 2.75 inches of rain Monday and Tuesday.

The total rainfall for August was boosted to 3.43 inches when a fine rain fell Monday afternoon and night, amounting to 1.87 inches. Another rain fell Tuesday which registered .88 of an inch of moisture.

The total moisture up to the first of September amounts to 11.76 inches. This amount is below normal for the year due to the very light rainfall during the spring and summer months.

These fall rains put the wheat land in excellent condition. Farmers are preparing and planting wheat between rains as rapidly as possible. From every indication the 1943 wheat crop will have a splendid start.

Grass hoppers are reported to be much less numerous this fall than usual.

## Must Register Apartments by Middle September

Many Canyon citizens who rent rooms, apartments or houses failed to register their property at the City Hall last week when a representative of Rent Control was here.

This must be done on or before September 15. Those who fail to register are subject to prosecution under the federal law.

Application blanks were left at the City Hall, or may be secured from the district office at Amarillo. Riley Strickland is rent control manager for the Panhandle section, and hopes that all citizens will have their property listed before the 15th of September.

## Route 1 Will Be Extended Sept. 16 for 12 Miles

Starting Sept. 16, Rural Route 1 will be extended 12 miles, making the total mileage of 46.4 for this route. More families will be served as a result of this extension.

After making the trip west, the carrier will turn south at the Edwards place, going 5 miles; then 1 mile east; 5 miles north; 1 mile west back to the point of the extension.

This route will be the same distance as Route 2. W. E. Miller is carrier.

Miss Jean Prichard of Flomott spent Friday with Mr. and Mrs. W. H. McAtee.

Mr. and Mrs. B. B. Cluck are visiting in Marietta, Okla., this week.

## Warren Elected Mayor

### Quota Over For Month August

War Bond Sales for Month  
Top Quota; September Call  
Is For Larger Amount

Randall county exceeded its quota of War Bond sales during August by \$1,547, according to R. H. Wright, county chairman of the War Bond committee.

The quota for August was \$17,500 and the sales amounted to \$19,047. The quota for September has been set at \$20,400, according to information received by Mr. Wright.

Bonds are on sale at three places in Randall county now, the First National Bank, postoffice and the Olympic Theatre. The theatres of the nation are devoting their efforts this month to the sale of bonds. Tuesday was the first day for bond sales by the Olympic and \$1,893.75 in bonds and stamps were sold.

## Loan Group Will Banquet Saturday

The 24th annual meeting of the stockholders of the Canyon National Farm Loan Association will be held at the Methodist Church Saturday night at 7:30 o'clock. A dinner will be served for all members of the Association.

President J. W. McCreery of the association said reports of the attendance committee indicate a large crowd will be present to take part in the meeting. Invitations have been sent to all farmers and ranchmen who have obtained Land Bank Commissioner loans through the association as well as to all farmer-members who have regular Federal Land Bank loans through the credit co-operative.

The office of the Association was moved to Amarillo this year in order to consolidate ten work of the officers.

Robert W. Foster is secretary-treasurer of the Association and E. J. Dunn is assistant.

### UNDERWENT OPERATION

Jane Campbell, daughter of Mr. and Mrs. Ray Campbell, underwent an operation Thursday morning for appendicitis at an Amarillo hospital.

Miss Margaret Stewart left this morning for Follett where she will teach this school term.

### W. A. Warren Named Mayor City of Canyon

MAYOR W. A. WARREN

W. A. Warren was selected Mayor of Canyon yesterday by the City Commission.

Commissioners S. B. Orton and B. F. Oatis were notified Monday that under Canyon's charter it was not possible to call a special election to name a mayor to succeed C. H. Jarrett, who resigned last Wednesday. It was the duty of the two commissioners to name the mayor to fill out the unexpired term.

Mr. Warren was named yesterday after having considered the offer since Tuesday. He took the oath of office after going over the city's business with the two commissioners.

Mr. Warren started in business in Canyon in 1921. His first store was called The Man's Store. In 1924 he moved into his present location on the west side of the square and expanded the stock to a general merchandise store. The name was changed to The People's Store. Last year the name was changed to Warren's.

During his residence in Canyon, Mr. Warren has been very active in all civic affairs. He has served as member of the school board, president of the Chamber of Commerce, and is a director of the Panhandle Water Authority which built Buffalo Lake. He is a past president of the Rotary Club, and official in the Christian Church.

Mr. and Mrs. Warren built a beautiful new home at 2111 Third Avenue last year. Their son, Meredith, is now a Lieutenant in the Air Corps, and their other son, Bernard, is associated in the business.

## Hospital Notes

Aug. 26, Mrs. G. A. Farlow, surgical, dismissed Aug. 31.

Aug. 27, Gussie Chesnut, W. T. medical, dismissed Aug. 28.

Aug. 28, Mrs. H. W. Beckman, tonsillectomy, dismissed Aug. 29.

Aug. 28, Carl Sims, tonsillectomy, dismissed Aug. 28.

Aug. 28, Carol Sims, tonsillectomy, dismissed Aug. 28.

Aug. 29, Mrs. Wilson Hicks, tonsillectomy, dismissed Aug. 30.

Aug. 30, Walter Graham, medical, dismissed Aug. 31.

Aug. 30, Mrs. W. A. Webster, tonsillectomy, dismissed Aug. 31.

This will be the last hospital news for the duration of the war. The Nebbett Hospital closed Tuesday, all of the patients being removed.

Dr. R. A. Nebbett and Dr. R. P. Jarrett will continue their offices in the hospital building until Dr. Nebbett is called into the Medical Corps of the Army.

## Sheriff Cantrell Is Delivering Inmates

Sheriff M. E. Cantrell, accompanied by Mrs. Cantrell and their two sons left Monday for Wichita Falls, Gatesville and Gainesville.

Two persons, who had been judged insane, were taken to Wichita Falls; one boy was delivered to the reform school at Gatesville; and two girls delivered to Gainesville to the school for girls.

The Cantrell family will visit in Austin before returning.

Mrs. Al Williams has received word from her husband that he has been transferred from Fort Sill to Mineral Wells.

Misses Ruth Cox and Anabel Cox left last week end for Sweetwater and Pampa respectively where they will teach for the coming year.

## Record Deposits at Local Bank

First Time in History That  
Deposits of First National  
Bank Goes Over Million

Deposits of the First National Bank reached a new high record Tuesday. This is the first time in history that deposits in Canyon totaled more than a million dollars. The million dollar mark was reached last week, and on Tuesday had gone to \$1,067,059.72.

When the First National Bank was reorganized in 1935 the total deposits were \$384,159.91. There has been a steady increase in deposits every year since then as shown by a statement printed in this issue of the News.

"The splendid condition of Randall county is revealed by the financial statement of the Bank," states W. C. Black, Vice President and Cashier.

The Bank was organized January 1, 1900, and has been a very vital force in the development of Randall county throughout the past 42 years.

## Herschel Coffee to Study on Ph. D. University Texas

Herschel Coffee has been granted a leave of absence for the coming year to study on his Ph. D. degree in the University of Texas. Mr. Coffee is Assistant Professor of Music and of Economics in West Texas State. He is a graduate of West Texas State and has his M. A. degree from the University of Southern California.

He will have a part time teaching position in the university while working on his advanced degree. His family will accompany him to Austin.

## Merchant School Will Close Tonite

The last session of the Merchants School will be held at 8 o'clock tonight at the City Hall.

J. P. Williamson, who has been conducting the school, starts a new school at Tulsa next week. He represents the Extension Service of the University of Texas.

The attendance at these sessions has been very small considering the number of business executives and clerks in Canyon. Vacation time is largely blamed for this small attendance.

The special classes for women seeking to be clerks could not be held because of the small number of applicants.

## Bond Is Bought For Penick Baby

The first bond for the infant son of Lieut. and Mrs. Lucius Gerald Penick was bought Tuesday as the result of donations by local people. Money is being collected for a second bond which will be given to the infant.

Money for two bonds has been collected by friends in Amarillo and these bonds will be presented soon. Gerald Lee Penick is the baby's name. He was born two days before Lieut. Penick was killed in a plane crash in Australia.

The following persons have contributed to the bond fund: Mrs. J. E. Dickinson, Mr. and Mrs. E. A. Upfold, Guy B. Tabor, Mr. and Mrs. M. H. Rockwell, Mrs. E. T. Selders, Chas. Donnell, Jim Johnson, Mrs. G. W. Jones, W. J. Wooten, Clyde Warwick.

### CEMETERY ASSOCIATION

Contributions to the Cemetery Association for the past four weeks are: Harvey Cash \$2; H. S. Strain \$1; Wesley Kleinschmidt \$1; Mrs. J. B. Hensley \$1; Mrs. J. B. Knox of Happy \$5; Mrs. M. Lucille Davault \$3.50; Mrs. W. O. Burnett of Electra \$1; Miss Mattie Foster \$2; L. A. Osgood, Columbus, Miss., \$1; M. S. Bishir donated labor \$1.65.

### STORK SPECIALS

A son was born to Judge and Mrs. Thos. A. Shriver at Nashville, Tenn. Mrs. Shriver will be remembered as Attie Gene Humphreys, daughter of Dr. and Mrs. J. S. Humphreys.

A son, Edward Joseph, was born to Mr. and Mrs. F. J. Grabber at an Amarillo hospital.

## Fine Quality of Scrap Received

Citizens Urged to Continue  
Gathering Junk for Benefit  
of the War Defense Plants

Randall county citizens are responding to the call for junk in the National Campaign. Jeff Wallace, manager of the Consumers Fuel Association, states that citizens of Randall county are bringing in metals and other vital junk every day.

The collection up to yesterday amounted to 68,417 pounds of scrap iron and 4,282 of scrap tin.

Tin cans and barbed wire cannot be accepted, states Mr. Wallace. The tin which is of value is old car fenders and bodies from which the wood has been removed.

The directors of the Consumers Fuel Association have offered the facilities of this organization and the time of Mr. Wallace to this campaign. Whatever profit may be made when this junk is sold to the government will be turned over to the Red Cross.

Mr. Wallace states that a junk dealer looked over the pile Monday and highly praised the quality. It was in just the right proportion of the various kinds of metal to be used in the steel furnaces.

Mr. Wallace states that all kinds of junk—rubbish, aluminum, brass, iron and tin from old car bodies—is needed by the government.

"This is not a campaign just for this week or this month," states Mr. Wallace. "The salvage campaign will continue until the war is won. Every patriotic American citizen is expected to be on the lookout for valuable metals and to turn it into War Production," states Mr. Wallace.

## More Men Are Volunteers In All Branches

A number of Randall county men have volunteered for military service during the past week.

Pat Britain was accepted in the photographic section of the Marine Corps at Dallas Thursday and expects to be called into service in 3 or 4 months.

W. F. Nix went to Lubbock Monday to volunteer but found that his age may keep him out. His case was submitted to Washington by the induction station. Mr. Nix was a veteran of World War I and wanted to get back into the service.

Walter Wendell Jones volunteered in the naval reserve.

Jack Glenn volunteered in the navy and will be called about the middle of the month.

J. S. Soleday volunteered in the navy.

Fred Hart received his call to begin training in the photographic service of the air corps. He volunteered several months ago and will leave Sunday for training.

Lieut. L. D. Barksdale was here this week, being transferred from training at Miami Beach, Fla., to Randolph Field. Mrs. Barksdale went with him to San Antonio.

Lieut. W. Holmes Smith will complete his preliminary training at Miami Beach, Fla., Saturday and will leave at once for Randolph Field.

James W. Butler writes that he is the "forgotten man" of the army. He is a candidate for Volunteers Officers Training and was transferred by the Randall County Board to Washington for induction. The board up there failed to induct Mr. Butler and returned his papers. Another trial is being made to get Mr. Butler into the army.

Marshall Rockwell, Jr., has volunteered in the navy and goes to Dallas in a few days for his physical examination.

Charles Franklin Marshall has volunteered in the air corps.

Otto Henry Rahlfs, Jr. joined the air corps.

Calls for induction now stand as follows: Sept. 22, 28 men; Oct. 17, 4 men; Oct. 30, 31 men.

## New Car Stamps on Sale Short Period of Time

Auto stamps good until June 30, 1943, are now on sale at the post-office for \$4.17.

These stamps are good for those who have not driven their motor vehicles since July 1.

The government will issue stamps every month from now on to take care of those who do not use their cars for the full year.

Checks are being made over the nation on cars which do not bear the 1942-43 federal stamps.

"I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation indivisible, with liberty and justice for all."

A man of German blood was talking to the Newsman the other day. He was a private in World War I and was soon to be inducted again into the army. His parents fled Germany because of the brutality which prevailed in that country. "General Pershing was right in his demand that the Allies march into Berlin in 1918," stated this loyal American citizen. "The supreme ego of the German people cannot be smashed until there is an actual invasion of Germany, and the German people made to pay," continued this observer. In his library this German-American citizen has every book printed on Germany in recent years, and he knows the history and the feeling of the German people. "The German people are a warlike people. You will be amazed to find out how many patents and how many industries right here in the United States are actually controlled by the Germans who make war their business. They are raising babies now for the next war, and win or lose this war, they are planning how they will fight the next one. The people of the United Nations can cuss Hitler all they want to and lay the blame on him, but after all Hitler is only the spirit of a war-mad nation which will never be conquered until the nation is wiped out," was the conclusion of this man. The News has heard this statement before many, many times, and usually by Germans who fled from Germany in order to escape the cruelties of the German system. The conclusion is that the United Nations must be mad, and mad aplenty, before we start winning the war.

Randall county goes over the top practically every month in the sale of War Bonds. Most of the other small counties meet their monthly quotas. If each and every county would do this, there would be no necessity for pay roll withholding and other devices to keep up bond sales. The facts are that the big, populous counties are falling down on the sale of bonds. Hardly a big county in the Southwest has met the monthly quota this year. War industries are centered around these cities, and it looks like it is the same old story: The more prosperous people are the less patriotic they become. Talking with a man from a nearby city the other day he stated that the big wealthy men of his city were not buying bonds, but were leaving it up to the little fellows. That isn't right. The more a man owns of the United States the more he has to protect, and the more he has to protect the greater he should pay toward its protection. This war is everyone's war. If the United Nations lose this war these rich devils will wish they had contributed more of their funds to the war effort instead of exerting so much effort in making money out of the war. The government is going to take away most of their profits anyway; and the war plants needs all of the finances to keep going.

President Roosevelt will make a talk on Labor Day. It is indicated that after all these months of re-

## Bring Your Coathangers

Canyon Tailoring Co.

fusing to do something about the labor situation that the President will advocate a ceiling on labor. The administration has so far refused to provoke either the labor unions or the farmers by placing a ceiling on labor and raw materials. Prices of commodities are increasing in spite of the constant walls from Leon Henderson and his staff who were appointed to stabilize prices. Henderson has repeatedly told Congress and the President that he was handicapped because of their refusal to place ceilings where ceilings would do some good. The nation is waiting with interest for what the President may say to those who produce both raw material and labor. Naturally the President does not wish to stir up a hornet's nest at this time. He allowed the golden opportunity to the patriotic surge just after Pearl Harbor without taking advantage of the opportunity to get tough with the elements which are bringing on inflation at a rapid pace. With more and more strikes, the President is now convinced that something must be done and will use Labor Day as a logical day on which to talk to the nation.

Again we are treading on thin ice: Please do not criticize young men whom you believe should be in the armed forces. A few people in every community like to shoot off their mouths about men who are not in the service without knowing the facts. First place, if you believe that any young man is escaping military service through some manipulation, be a man or woman enough to go to the Local Board and tell them what you know—not what you suspect. In the second place, chances are the man whom you criticize has been called before the Local Board and has a legitimate reason for not being in the army. Many men have physical defects of which the public knows nothing. The man may look like he was as strong as an ox, and yet these defects would disqualify him for military service. "Of course you know so-and-so has a pull to keep him out," is the slander used by such people who know nothing about the case they are discussing. This war is serious. Men are dying every day, and thousands more men will be killed before the end of the year. Your efforts are too valuable to be squandered in idle gossip.

Canyon people who think they should run out of town every time they wish to buy a dime's worth of something, please read this: A woman whose husband is working on a war plant a few miles away from here was in the News office Saturday. She was looking for a place to live as she wanted to move to Canyon. Why? Here is what she said: "I have visited Canyon twice every week since I have been in this section. I buy practically everything we use in Canyon because I save money by buying in Canyon. These shoes were priced to me at \$10 in a store in Amarillo, but I bought them in Canyon for \$6.85—the same identical shoe. I am saving as much as 10 cents on every little purchase I make in Canyon," and she had a carload of things she bought in Canyon Saturday. Please, Canyon people, please look at the stocks in Canyon before you rush away to make your purchases. You should be mad at

yourself for having wasted so much money in years past.

Every war develops a "Spirit." History records the spirit of the Revolutionary War, the Civil War, and other Wars in which this nation has been engaged. What will history say about the "Spirit of 1942?" Will it be a spirit of sacrifice, or of selfishness? If you look at the fate of small business institutions and of the white collared class, it will largely be a spirit of sacrifice, as these are really hit by the war. If you look at the labor leaders and industrial classes, you may record how that it is a spirit of selfishness. However, at this time we are too near the forest to see the trees. Maybe the situation will be clarified before the end of the war. Whatever the spirit of 1942, the people as a whole will determine this spirit, and so far this war is much too young to have developed any particular trends.

Roger Babson advises all men and women to make a will while they are in good health and in their right minds. It is pointed out that thousands of men will spend a lifetime amassing wealth only to leave it for the relatives and lawyers to squander in court after they are dead. That simply does not make sense. A simple will showing how you would like to dispose of your property is the proper thing. Some men attempt to control their estates for years after they die. That is almost as foolish as to fail to make any provision by a will.

Have you turned in your scrap metal and rubber? A lot of people are running around wanting something to do to help the war efforts. There is nothing glamorous about gathering junk, but unless more junk is sent to the steel furnaces, production of ships, tanks and planes will decline. It is the patriotic thing to sell all of the junk you have been kicking around your place, whether you live on the farm or in town.

All citizens of Canyon are very grateful for the services of C. H. Jarrett during his long tenure of office as a member of the City Commission and as Mayor of Canyon. Mr. Jarrett has handled a big paving program, and was the moving factor working with Coach Al Baggett in building the big physical education plant at West Texas State. This fine service to the city of Canyon will not be forgotten by the people of Canyon.

Again we say, every young man should continue in college, or in high school just as long as possible. The war is taking every young single man who is physically fit, and will soon begin taking every married man without children. But the boy who stays in school and studies hard will make much greater progress in the army because of this training. You owe it to yourself to stay in school even if for only a few more months.

If you intend continuing to drive an automobile, renew your drivers' license during September. All licenses in Randall county will expire in November so do not be caught without your license when the time expires.

Heart failure is taking too many middle aged men. Worry, rather than overwork, is responsible for the large number of deaths. There is little satisfaction in getting advice about your conduct in times like these, as almost every man feels that he is as stout as a mule and can stand any kind of physical punishment until it is too late.

These pesky flies! Seems like a whole swarm pour in every time the door opens. There still must be too many breeding places for flies around Canyon, judging by the population of the pests.

### LET'S STOP KIDDING OURSELVES

An advertisement on the war situation, published in last week's Time by Warner & Swasey of Cleveland, Ohio, contains more food for thought than many a polished editorial. Headed "IT IS LATER (AND WORSE) THAN YOU THINK," this meaty advertisement warned the American people that:

"Wishful thinking is an American habit. Another name for it is 'kidding ourselves.' Ordinarily it isn't serious. But this time it can cost our lives."

The body of the advertisement offered some pertinent refutations to some of the ways in which Americans "kid themselves."

"This country has never been beaten in its 166 years."

Japan has never been beaten in all its 2000 years.

"They can't get at us, 3000 miles away."

Japan got to Burma, 3600 miles away—and conquered it.

"Anyway, we're pouring it out of our factories."

But Germany has been doing just that for 10 years—and at a faster rate per man than we have yet reached.

"Our boys are brave."

You bet they are. But they're up against fanatics, who are experienced campaigners.

"Our Allies will hold until we get there."

Singapore, Philippines, Pearl Harbor, Burma—and now Libya.

The Government is handling the war.

Who is the Government except YOU? And if you don't do your part, don't blame "the Government" when you slave for Jap and German masters at starvation wages with NO rights and NO liberties.

"But I can't give up my rights."

NO? Our soldiers have. Most

managers have. Almost all owners have. And unless EVERYONE gives up EVERY "right" that slows war production, the Jap and German will TAKE your rights—every one of them—FOREVER.

"Anyway, what can one man do?" What if all the other 130,000,000 Americans felt the same? If you do, they have a right to. Nobody else is going to win this war for you. YOU win it—or YOU lose it. And if you lose it, you and your family will pay for it in agony and starvation the rest of your lives. Ask the Poles, the Czechs, the French.

And this war is nearer to being lost than you think. That isn't pessimism—it's only looking the facts in the face. Work by YOU can save it. But—there isn't much time to get busy.

### FLAG WAVING

Canyon News: A great service was done by 300 magazines. Their organization adopted the United States flag as the most appropriate cover for the July issues. It was not just an accident that the theme was so effectively carried out. It was a united effort, and all Americans should feel proud of these publications for the splendid service in this patriotic endeavor.

State Press in Dallas News: The nation-wide, concerted move of the magazines of America to display Old Glory proved unusually successful. The cover of every magazine represented in the publishers' association appeared in the specified period with the flag unfurled and reproduced in natural color, in most cases. The ingenuity and interesting ways in which respective editors brought the flag into view was also commendable. The cynical among us may be scornful of what they call flag waving. Twenty years of the debunking spirit has had its effect on popular reaction to all symbols of the traditional and there was a tendency to hold back in awarding the flag the predominant place it demands in wartime. Happily, this phase has passed and citizens generally are giving the national banner its rightful place.

We are not as consistent and zealous about displaying the flag in some parts of Texas as we ought to be, however. During wartime the flag should be flown every day, not confined to holidays.

More than 15 million bushels of grapefruit were grown in Texas in 1940.

# JUNK RALLY

## For Randall County

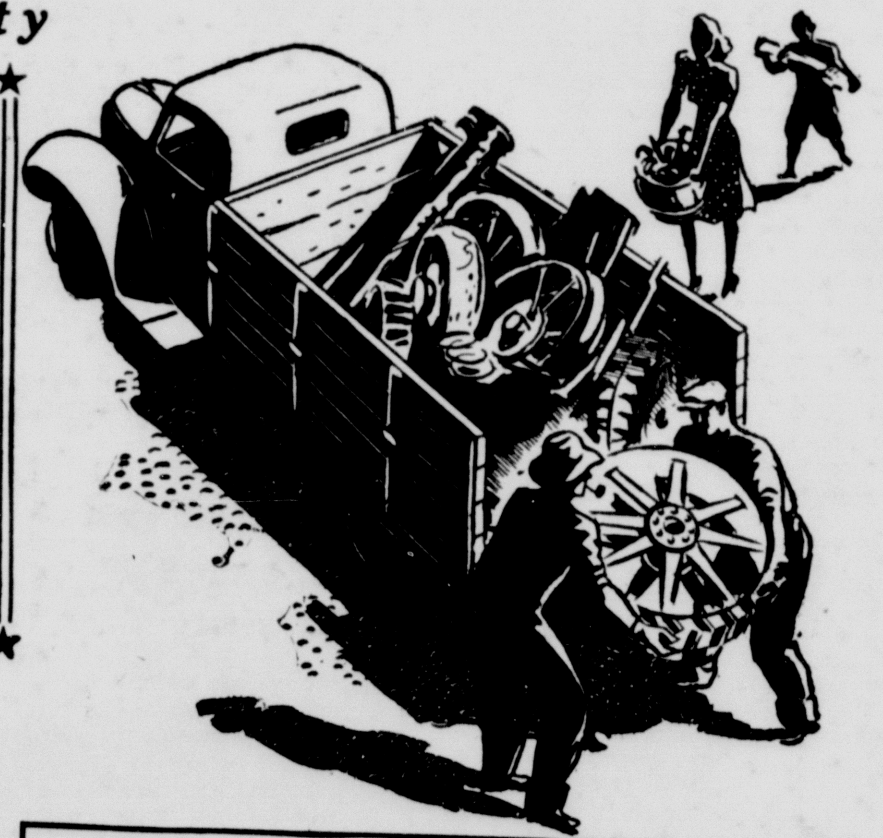

and vicinity

### NATIONAL SCRAP HARVEST

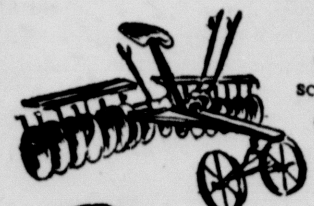

All scrap metal and rubber in Randall County MUST be gathered at once. Our fighting men MUST have more munitions, and this old junk will provide them with the needed metal for munitions—more planes, more ships, more guns. It is YOUR patriotic duty to bring in this scrap junk THIS WEEK.

Junk helps make guns, tanks, ships for our fighting men.....  
Bring in anything made of metal or rubber...  
Get paid for it on the spot

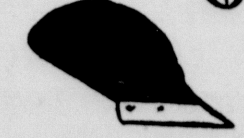

Bring your family  
Spend the day  
Meet your friends

### JUNK MAKES FIGHTING WEAPONS

One old disc will provide scrapsteel needed for 210 semi-automatic light carbines.

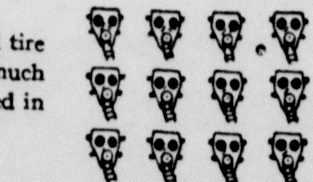

One old plow will help make one hundred 75-mm. armor-piercing projectiles.

One useless old tire provides as much rubber as is used in 12 gas masks.

One old shovel will help make 4 hand grenades.

There's an ART to Cooking

Vegetables can be tasteless—lacking in nourishment...or they can be a tempting delicacy that's brimful of health-building vitamins and minerals. Meats, too, can be dried-out shrunken sinews...or savory, juicy muscle-building foods.

Yes—there's an art to cooking...and the emphasis today is on "waterless" Gas cooking of vegetables to retain their flavor and save valuable vitamins and minerals. Oven roasted meats also shrink less, retain their nutritional properties and flavor when cooked the low temperature Gas way.

And more...you also save Gas...a vital fuel for America's War Effort.

West Texas Gas Co.

### Pound of SUGAR

It isn't on your pantry shelf...because it's gone to the War Front. You see, one pound of sugar supplies enough gunpowder to fire a machine gun 46 times. That's why sugar is rationed...why we are gladly doing without to speed Victory.

Gas, too, is speeding War Production. It is a vital element in providing the necessary fuel for the forges and furnaces of America. It is used to cook food in the Nation's Training Camps. Do your part by using Gas wisely.

# Nazi Planned Brutality

For sheer planned brutality, the Axis leaders have proven themselves comparable to the barbarians of ancient history. In World War I there was much talk of atrocities. But many of the atrocity stories were made up out of whole cloth for purposes of propaganda. Real atrocities were scattered and relatively rare, and they were not done as a matter of governmental policy. In World War II, to the contrary, murder and rape and devastation are pursued by the Germans and the Japanese almost as a matter of routine—and that fact has been completely substantiated by reputable eyewitnesses. It makes little difference to the Gestapo whether a man is innocent or guilty, as the mass executions of hostages abundantly testify. The Axis radio, at times, actually boasts of the wanton slaughter of non-combatants.

President Roosevelt, during the course of a recent warning to Axis officials that retribution would come when the war ends, said, "The practice of executing scores of innocent hostages in reprisal for isolated attacks on Germans in countries temporarily under the Nazi heel, revolts a world already inured to suffering and brutality. . . . Civilized people long ago adopted the basic principle that no man should be punished for the deed of another." That principle has been entirely abandoned by the Axis.

The Axis is deliberately exterminating entire populations. Hitler himself has said that the Poles must be liquidated—and, according to reports which have seeped out of Warsaw, the death rate has assumed incredible proportions, especially in the Jewish areas. Starvation is rampant in Greece, and some authorities believe that within two years, under present conditions, the Greek people will virtually disappear. Men who have escaped from Jap concentration camps in Hongkong and elsewhere, say that the Japanese are pursuing an almost identical policy. Captured soldiers and civilians alike are given almost no food. They are denied

all medical supplies and attention. Sanitary conditions are literally horrible. And these people, as a result, are dying like flies.

One of the latest Axis innovations has been to raze entire villages, shoot every male resident, and send the women and children to forced labor within Germany. For every attack made on Axis officials, major or minor, dozens of innocents are executed. When a really important Axis official is killed, such as "Hangman" Heydrich of the Gestapo, the toll of slaughter runs far into the hundreds.

When the war ends, as the President has said, the men responsible for this will be brought to justice. And a long list of Quislings within the occupied nations who are working hand in glove with the Axis will also have to face judges appointed by the people in whose ruin and torture they have collaborated. In the meantime, Hitler's barbarous tactics have not broken the spirit of the conquered nations. To the contrary, the flame of revolt burns ever higher. Sabotage goes on. Germans are found dead in the towns and countryside of France, Greece, Holland, the Netherlands, the Balkans, etc. And in all of the occupied nations, amazingly well developed "undergrounds" exist.

The men who belong to these undergrounds are unknown. The names of many of them will never be known. Theirs is the most risky and desperate of undertakings. Every second of the day they must face the specter of death by torture. This is the highest kind of human courage. Life recently ran an article on the French underground which is especially effective. The leaders quietly and continually organize sabotage of the Nazi war effort in French factories. They print little newspapers which are widely circulated and which bring to the enslaved French people news of the free world outside their borders. As part of this work, the French Underground has compiled an interesting "blacklist" of men and women who are marked for assassination. All of the names on that list belong to Frenchmen who have sold out to Germany. And some of the names are world famous: Petin; Weygand; Laval; Derain, the painter; Mistinguett, the celebrated music hall star; Carpentier, the pugilist; Maurice Chevalier, the movie actor; etc. etc. The Free French have pledged that not one of the men and women on that list will escape swift justice at the earliest possible time.

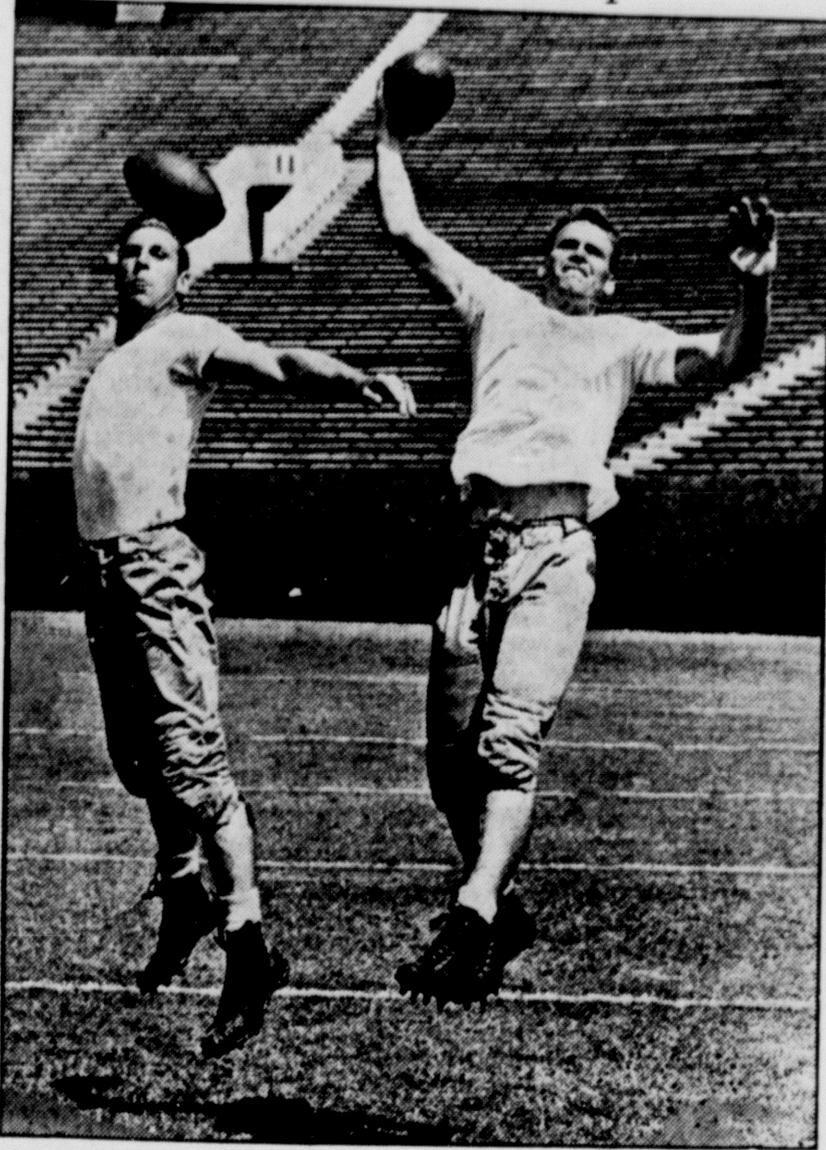

To quote the President's warning once again, "The Nazis might have learned from the last war the impossibility of breaking men's spirit by terrorism. . . . Frightfulness can never bring peace to Europe. It only sows the seeds of hatred which will one day bring fearful retribution." The patriots in the conquered, tortured nations are waiting with grim anticipation for that day.

Old hands at aerial war, in the sky and on the football field, are members of the Army All-Stars. Among ex-Texans tossing the pigskin around are First Lieut. James Thomason, left, all-America 1940, and Second Lieut. John Kimbrough, all-America 1941. Both are Texas A. & M. graduates.

## Backfield Will Be Inexperienced

**Ball Handlers Will Be Organized Around Mack Winter, Veteran Blocker**

Coach W. A. (Gus) Miller has a sizeable set of backfield worries in his first year at West Texas State, but Mack Winter, blocking back, is not one of them.

Winter, a durable Perryton youth, is expected to be one of the finest blockers in the Border Conference in the coming season. He was a dependable regular last year. Although he would be a potent ball carrier, his services as a blocker are worth more to the club.

J. W. (Andy) Anderson of Lamesa, whose positions include that of president of the Students' Association, is a leading candidate for the wing-back post. He is fast and as a senior should come through.

There is a question mark at full-back. J. P. McMahan of Wichita Falls, junior speedster, may get the call if an ankle injury does not prevent. A possibility is burly Joed Forbus of Happy, co-captain, who ordinarily plays a great game at guard. He would be a hard man to stop. No experienced tailback is in sight. Opportunity may smile upon Edward Castleberry of Vernon, a sophomore.

Among the most likely reserves are Curtis Kelley of Lockney, William Flowers of Perryton, and Merl

Pruitt of Panhandle. However, some incoming freshmen will have a chance to fight for starting assignments.

"Barring further losses and early season injuries, we're going to play some mighty good football," Coach Miller said in what was, for him, a moment of optimism.

A veteran line will be the mainstay of the Buffaloes in early games.

The Officer Candidate Board at Fort MacArthur, so the story goes, when it examines a prospective officer usually includes a question on the parts of speech. One candidate was sitting at rigid attention, expecting the worst. "Private Blank, do you know what a gerund is?" one of the examiners asked. The candidate relaxed. "Yes, sir," he replied. "Then please explain it in your own words," the examiner pursued. "Sir," said the private, "a gerund is the new M-1 semi-automatic rifle."

Game restoration projects in Texas during 1939-40 included distribution of quail, deer, antelope, turkey, beaver, doves, muskrats, prairie chickens, raccoon, mink, ducks, geese and squirrels, which were trapped in the more plentifully stocked areas and distributed to other points.

During the last few years, the muskrat has taken the place of the opossum as Texas' leading furbearing animal.

Approximately 800 species of native birds in Texas have been catalogued.

## Negative Elements Which Shake Morale of Nation Described

Harris M. Cook talked at the Rotary Club luncheon Tuesday on negative elements which were hampering morale building in this nation.

Citizens of this nation are concerned chiefly with three things right now: Winning the war; winning the peace; and building a new world in which we can live in peace.

Forces are at work to disturb our program. Our enemies from without are being aided by forces from within our nation.

They would shake our confidence in our social institutions; discourage our belief in Democracy; shake our confidence in our leaders; try to convince us that our goals are not permanent.

Various means are taken to shake our confidence. Smearing Congress is one of the favored methods. The people are told that Congress is either giving the President too much authority; or are giving him too little authority. The speaker maintains that Congress represents the people and is a fair cross-section of the people of the United States.

Another method of ridicule are the stories which are spread in order to divide us from our allies; and to drive differences between classes within our nation.

Our enemies whisper: "Do you suppose we will ever get anything out of our war bonds?" This is for the purpose of striking at our faith in our government and at the integrity of our government. Mr. Cook maintains that War Bonds are the safest investment that can be made, and all citizens must show their faith by continued buying.

Production of our war plants; the apparent lack of ships; the submarine, are all used to shake our confidence in these whispering campaigns of our enemies.

Mr. Cook declared that our government cannot always tell us everything, as military secrets must be kept from our enemies. "I have confidence in our nation. We may have to give up some of our liberties in order to win the war, but they will be given back to us. We have social institutions which must be maintained. They are worth fighting for," stated Mr. Cook.

Visitors were: J. Frances Brown, F. R. Barnes, E. Kancher, John McCarty, all of Amarillo; Chet Dunlap of Dalhart.

## Randall Co. Farmers at Hereford Meeting

A number of Farm Bureau delegates from Randall county attended the sub-district meeting of the Texas Farm Bureau Association at Hereford Wednesday.

Among those attending were: L. E. Mason, Mr. and Mrs. Emil Olson, H. W. Burrus, James Eddie Park, W. E. Bennett, B. E. McCormick, Clarence Beckman, Vincent Friemel, Mrs. E. A. Michael, Mr. and Mrs. S. L. Robinson, Glenn Dowlen, W. H. Upchurch and several others whose names were not available to the News.

## Many Local Citizens Attended Reunion

The annual reunion of early day cowpunchers was held last Wednesday and Thursday at the Wragge Park, north of Canyon. The park is in sight of the old T-Anchor Ranch headquarters, the first house built in the territory now comprising Randall and Deaf Smith counties.

## First Victim of War Is Honored

Plaque to J. E. Pietzsch Given to Amarillo in Program on Sunday

Tribute was paid Sunday to the memory of Lieut. J. E. Pietzsch, the first Amarillo youth and first W. T. ex-student to make the supreme sacrifice in World War Two.

The stirring ceremony was a radio presentation over KGNC. A bronze plaque, given by the Amarillo District Golden Gloves Committee, honoring Lieut. Pietzsch was presented to the city of Amarillo by Lieut. G. C. Beale, boyhood companion of the fallen hero. Mayor Joe Jenkins received the plaque and made the acceptance speech in which he declared the memorial would be placed in the former City Auditorium, now the home of the Amarillo USO.

Wes Izzard outlined the significance of the occasion and introduced Jerry Malin, who in turn introduced Lieut. Beale. Intimate friends and relatives were in the studio during the ceremony.

Lieut. Pietzsch was killed at Pearl Harbor on that fateful day of Dec. 7, 1941. He was a bomber plane navigator. He was a great athlete here and at West Texas State College. He won the Golden Gloves heavyweight title here in 1939 and was one of the most popular amateur boxers ever to win a championship in Amarillo. In 1938 he was the state AAU champion.

Last February the Golden Gloves Committee dedicated the Golden Gloves Tournament to his memory and had the plaque made. It was

decided to await a fitting time for the official presentation.

When Lieut. Beale, who was a bombardier on one of the bombers in the squadron which flew right into the war at Pearl Harbor, came home recently on a leave from the William Beaumont Hospital in El Paso, the Golden Gloves officials knew the right time had come for the presentation.

Sunday's ceremony was dedicated not only to the spirit of the unselfish and loyal Lieut. Pietzsch but also to the other youths who have died defending the country's principles.

"That's a lot to pay for a bird," the sailor told the auctioneer. "Can the parrot talk?"

"Can he talk?" the auctioneer replied. "Who do you think was bidding against you?"

## College Making Plans for Fall

Reorganization Plan to Require Much Attention Before September 22

West Texas State's summer session will come to an end Saturday, when final examinations will be given at the usual class periods. About 800 students have attended the 9-week and 6-week terms, intensifying their work in the war emergency.

The fall term will open September 22. In the interval most of the instructional staff will enjoy a respite from classroom activities. During this period, however, re-finishing of dormitories will be undertaken. Cousins Hall will receive new draperies and new furniture for the reception room, and the floor and woodwork will be refinished. Business Manager Henson is seeking contract labor on several improvement projects.

The Amarillo Center of West Texas State, which will open on September 21, is taking form rapidly as new furniture arrives. Director Roy G. Boger is in charge. Miss Alma May Clark, who will direct the nursery school, will arrive this week from her home in Louisiana. She has been director of the nursery school at Louisiana Tech.

Concerning the term now closing, Registrar D. A. Shirley has made several requests. Graduating seniors are being asked to call for their diploma folders. In this group are those who will finish their work by correspondence. Written requests for transcripts should be left by those who desire them. Certificates are ready for many who have asked for them, but some payments have not been made.

Dr. Shirley also asked that department heads turn in course lists for the fall semester class schedule.

The departures from the campus already have begun as teachers go to their school positions. Arrangements to take partial credit or to finish courses by correspondence have been made in many instances.

Dr. J. A. Hill returned to his office today to take up the heavy program on his calendar. Reorganization of the college will mean that many conferences must be held on administration, guidance, and registration before the fall term opens. Duties of most of the new deans and school chairmen have been defined in general terms, but coordination of duties is another matter. The set-up, in brief, is as follows:

General dean—Dr. R. P. Jarrett.

## OUR DEMOCRACY — by Me

**HEROES' HONORS.**

**CONGRESSIONAL MEDAL OF HONOR.**  
FOR CONSPICUOUS GALLANTRY IN ACTION, AT THE RISK OF LIFE, ABOVE AND BEYOND THE CALL OF DUTY.

**DISTINGUISHED SERVICE CROSS**  
FOR EXTRAORDINARY HEROISM IN MILITARY AND NAVAL OPERATIONS AGAINST THE ENEMY.

**DISTINGUISHED SERVICE MEDAL**  
FOR HIGHLY MERITORIOUS SERVICE TO THE GOVERNMENT IN A DUTY OF GREAT RESPONSIBILITY.

Graduate dean—Dr. A. M. Meyer.  
Dean of Upper Division—Dr. D. A. Shirley.

Dean of Lower Division—Dr. A. Kirk Knott.  
Chairman, School of Liberal Arts—Dr. L. P. Sheffy.

Chairman, School of Education—Dr. R. P. Jarrett.

Chairman, School of Business and Public Administration—Dr. Lee Johnson.

It is expected that these chairmen, working through and with department heads in their schools, will carry a heavy responsibility in working out the policies evolved in the process of reorganization.

## College Quota Is 90 Young Men

Military Reservists Will Be Limited to This Number in Next Term

Wanted: 20 young men to take college training to prepare them to become officers in the armed forces of Uncle Sam.

The War Department has given West Texas State a quota of 90 men under the college procurement plan. The military services have launched this plan to provide a source of well trained fighting officers. The first step the male student takes is to enroll at West Texas State on September 22. Soon afterward representatives of the several military branches will come in a group to explain the careers open in these services. Somewhat later a recruiting party will arrive to enlist college men in the branches they have chosen. The enlisted Reserve Corps of the college will remain here for two or more years, or until called. They will be regularly enlisted men but with deferred service to permit them to take courses required by their service branches.

The eligible men, 17 to 26 years of age, are being urged, as a patriotic duty, to go to college and enlist in a military branch so they can prepare to become officers in today's highly mechanized and technically efficient services. The War Department wishes to enlist 90 men through West Texas State this fall. There is a shortage of trained men for officer material.

Enlisted reserves must do good college work or, failing, they will be called to immediate duty. Theirs is an opportunity to prepare for greater service while, at the same time, they get training which will be useful in peacetime. The office of the Dean of Men is coordinating the college procurement program.

According to the census of 1935, crops were harvested during 1934 from 16,435 irrigated farms in Texas.

## No Defeat for Russians Seen by Lyceum Speaker

It was the ignorance of the leaders of the democracies which impelled Joseph Stalin to sign a pact with Hitler, but this agreement gave Russia more time to prepare and is paying dividends to the United Nations now, declared Dr. Richard Struna in a lyceum address last week.

Dr. Struna, former industrialist of Czechoslovakia, said Russia will never be defeated by the Germans. The orderly retreat while exacting heavy tolls of German men and material will, he said, prove decisive in addition to the terrible Russian winter which will begin soon.

The speaker paid a tribute to Yugoslavia, which by resisting Hitler delayed the attack on Russia and probably saved Moscow.

"It will not be a death blow if Stalingrad falls," Dr. Struna said. Beyond the Volga, which is a great water barrier, are factories, millions of soldiers, . . . and winter.

Russia already has cost Germany as many men as she lost in World War I, Dr. Struna estimated. The speaker said Russians now have the pride of country. They are literate and they are, in the main, the fighting sons of the Czar's serfs. Their communism is not a menace to any country which takes care of its people, Dr. Struna concluded.

## ZOO ON WHEELS

A wise guy stepping up to the bus as it stopped the other morning said to the driver:

"Well, Noah, you've got here. Is that Ark full?"

The motorman answered back: "Nope, we need one more monkey. Come on in."

Wealthy people don't get enough roughage in their food; the poor don't get enough food in their roughage.

Man has now conquered almost everything dangerous in nature . . . except human nature.

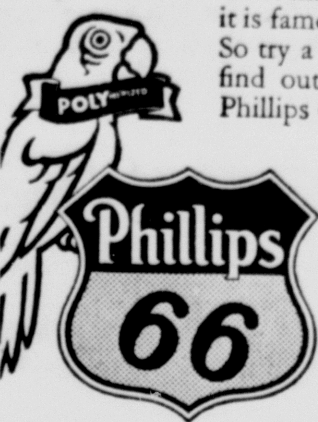

# "AIN'T WE EVER GOIN' RIDING ANYMORE?"

Good Americans have given up joy-riding for the duration. They realize that all-essential tires must be used only for vital transportation . . . for going to work . . . for necessary shopping . . . for getting to and from places where other forms of transportation are inadequate or non-existent.

Your car was a peacetime luxury; now it is a wartime necessity. The economic life of the country, and our victory effort, may depend on how long you make your tires last, on how well you take care of your car.

The Phillips 66 Service Man will gladly help you. He will inspect your tires for cuts and bruises, check air pressure, and criss-cross them with the spare every 3,000 miles. He will check your radiator, battery, and air filter. He will lubricate your car from tip to toe. Then, with Phillips 66 Poly Gas and Phillips 66 Motor Oil, your car and your money will both go farther.

You know that Phillips 66 Poly Gas is the favorite of millions of car owners, that it is famous for pep and mileage. So try a tankful for yourself and find out just how good today's Phillips 66 Poly Gas is.

## Phill-up with Phillips for Greater Mileage

"Do you act toward your wife as you did before you married her?"  
"Exactly. I remember how I used to act when I first fell in love. I used to stand in front and look at her house almost afraid to go in. Now I do the same thing some nights."

We've enjoyed courtesy and willing service so much that we sort of hate to see the depression end.

Everything comes to him who waits . . . if he waits in the right place.

## Legion Election

(Continued from page one)

It is time again to pay dues. Our membership last year was a new high. Hand your dues to one of the officers at once or mail them to the adjutant.

An order will be made soon for Legion caps for those who wish them. If you do not have a cap turn in your order at once.

The response to the call for old phonograph records was disappointing. Any who would still like to contribute their records, please contact any Legion man.

## BOOKKEEPER EMPLOYED

Miss Lee Una Sullivan of Fort Worth has taken a position as bookkeeper in the business office of West Texas State.

She has a bachelor's degree from Baylor University and the M. E. degree from the University of Texas. The latter degree was received this summer.

Miss Rose Parsley and mother have returned from Austin where they have spent the summer.

Frank Sharman left Wednesday for Abilene Christian College where he will attend school.

## Capt. W. E. Lockhart

(Continued from page one)

Lockhart is scheduled for foreign service; Mrs. Pettitt's husband is in training at Miami Beach, Fla. Mrs. Mays and Dr. Lockhart were at their father's bedside with their mother. Capt. Vincent Lockhart and Mrs. Pettitt will arrive today.

Capt. Lockhart served in World War I as a commissioned officer. For 20 years he was head of the Business Administration of West Texas State College. He was greatly interested in athletics, being coach of tennis and golf, and member of the Athletic Committee.

Capt. Lockhart became commander of Company F several years ago. He made a brilliant record with his company at the various annual camps. He took 75 men to Camp Bowie in January, 1941, the Company having more college graduates than any other company in the Camp. Every man in the original company has been promoted, and several of them are now commissioned officers.

Capt. Lockhart served as regional director of the Interscholastic League for several years; assisted in Boy Scout work; and was commander of the Palo Duro Post.

mander of the Palo Duro Post.

## ASTERS IN BLOOM

Large beds of asters, now in full bloom, are attracting attention at the Southwestern Dahlia Society trial grounds now. Dahlias in a variety of colors, shapes, and sizes, also are in bloom, but their full radiance will come somewhat later.

## SHIEK CLOSES CAFE

Shiek's Cafe closed Saturday night for the duration of the war. R. T. McDaniel expects to be in the armed services soon, and Mrs. McDaniel has taken a position in Pan-Tex.

Miss Henrietta Ludeman and Mrs. Lawrence Ludeman of Plainview spent Monday with Mrs. W. Holmes Smith. Miss Ludeman is Mrs. Smith's sister.

Mr. and Mrs. Clifton Jarrett and Cpl. and Mrs. Kenneth Gibson left Tuesday for a week's vacation in New Mexico.

Mr. and Mrs. M. L. Hunt, of Havana, Cuba, spent a few days last week with Mr. and Mrs. J. S. Cleland. Mrs. Hunt is a sister of Mrs. Cleland.
